

# Security Upgrade Installation Service

**Doors and windows are common points of entry by thieves during a burglary. The installation of quality locks on both can hinder or prevent a forced entry.**

## Did you know?

A home or commercial property is only as secure as its weakest point of entry that's why it's so important to have doors and windows that are as secure as possible. Advice from the Police suggests that burglars tend to target windows first as they can offer easier access than doors but it's not uncommon for multiple entry attempts to be made.\*

## How can Aviva help?

At Aviva, we can provide an installation service for security upgrades in occupied properties via our Specialist Partner, Evander. Preferential rates are available for Aviva customers.

This includes door and window security devices (locks, key operated surface bolts, hinge bolts and patio door locks) and commercial premises security including security devices installed on emergency exits and roller shutter doors.

## What are the benefits?

- Proven service delivery
- Competitive pricing structure
- Additional security advice

## Evander

Evander is a UK national provider of glazing, door and locks. With a network of branches and directly employed Engineers across the UK, Evander provide a suite of installation services to support policyholders in taking appropriate levels of redress to mitigate loss and comply with minimum security requirements as defined by Aviva Risk Management Solutions.\*\*

## Who could use Evander?

- Any policyholder who requires the installation of upgraded security products to their property
- Wholesale
- Retail and leisure
- Motor trade
- Property owners
- Industrial
- Construction
- Engineering
- Residential
