Manufacturing (all trades)

The manufacturing sector covers a wide range of trades, opportunities and challenges and forms a large and important part of the UK economy. Manufacturing remains one of the key industries for the UK. In an increasingly competitive market it is vital that manufacturing customers receive more than just transactional premium from their insurer. We recognise the diversity of the manufacturing industry so we can help **protect** what matters most, **prevent** bad things happening and **fix** things fast when they do go wrong.
