

# Aviva Mid-Market

Risk Management Solutions

For broker use only.  
Not for use with customers.

## Expertise beyond expectation

In 2018 we completed over 10,000 surveys, covering over £250bn of risk exposure. Our UK-wide team is the largest of its kind, with over 100 highly experienced risk consultants, including specialists in property, liability, business continuity, motor fleet, construction and financial lines.

All our risk consultants are NEBOSH certified in health and safety management and will work with you to support the development of risk management strategies, sharing best practice to help reduce costs.

### Our proposition

Dedicated on-site risk consultancy

Agreed risk management programme, using drone and thermographic technology

Bespoke client risk reporting and industry benchmarking

Legislation and best practice advice

Proactive risk partnering to help understand new and emerging risks

Provision of customised loss prevention solutions

Risk improvement ownership and management

Post-loss reviews aligned with claims insight

**To find out more about risk management, please speak to your Aviva sales manager or dedicated risk consultant.**

### Proactive Risk Partnering

Our prevention first philosophy means that throughout the lifetime of the insurance period, you and your client, regardless of size, will have access to innovative solutions to help understand current, new and emerging risks, through access to:

- Complimentary risk helpline
- Online resources that include: technical guides, assessment checklists, guidance and loss prevention standards
- Over 80 specialist partner solutions and technology, benefiting from pre-agreed discounted rates and SLAs
- On-demand virtual risk advice and consultancy that suits you and your client's schedule
- Business support funding to part or fully fund consultancy, loss prevention solutions and technology to help innovate and improve risk management strategies

### Risk Management regional contacts

**A prevention-first approach makes risk the last thing on your mind**

Our risk consultants will work in close partnership with you to help prevent the avoidable and mitigate against the unavoidable today, tomorrow and in the future
