

What's eligible?

We provide indemnity for physical loss or damage to the goods for goods owners across a variety of bases:

- Annual – adjustable and flat and non-adjustable contracts
- Open Covers – subject to monthly or quarterly declaration
- Stock throughput covers – including stock at one or multiple locations
- Facultative – single trip or short period covers
- Physical loss or damage to goods while in transit
- Temperature-controlled goods
- Private Individual Policy – household goods and personal effects
- Private Individual Policy – motor vehicles.

What does the cover do?

Our policies cover physical loss or damage to goods while in transit and can be extended to include physical loss or damage to goods whilst in permanent store.

Logistic companies operate under limited liability and statutes, and their liability in nearly all circumstances will be less than the value of the goods. Consequently our policies are appropriate for companies moving goods anywhere, companies holding legal title to goods while in transit and private individuals moving their possessions.

Why choose Aviva?

We have expanded our appetite and capability to encompass online trading platforms, higher operational underwriting limits, increased overseas capability and diversified product proposition.

We have relationships with two international companies that extend our capability to write foreign-domiciled or situated risks in accordance with local legislation.

- £350 minimum annual premium
- £250 individual transits

We write business on several types of policy:

- Market-competitive wording
- Aviva-generated bespoke wording
- Slip wordings
- Agreed broker wordings
- Co-insurance.

We have a number of cover extensions available including:

- Physical loss or damage to goods whilst in permanent store
- Consequential loss cover
- Rejection risk cover
- Exhibition cover
- Demonstration equipment cover
- Engineers' tools
- Representatives' samples
- Cover can be based solely on UK transits or can also include international transits
- Intercompany sendings
- Cross voyages.
